IDENTIFIERS	*Maryland

ABSTRACT

This data report provides statistics regarding the number and percentage of Maryland community college students who earned a bachelor's degree.from a public four-year campus in the state of Maryland within a specified period of years. The paper reports on students from the state's 15 community colleges who transferred during each academic year from 1996-97 through 1999-2000. The report also supplies statistics regarding the cumulative grade point average (GPA) earned by community college transfer students (2000-2001) at their four-year institution in their first year after transferring, as well as statistics regarding the percentage of students who earned bachelor's degrees within 5 years after transferring. The report offers statistics broken down by individual community college, by four-year transfer institution, and by system total. The statistics are further broken down according to white students, African American students, and all minority groups. About 58.5% of all white students from the 1996-1997 cohort who transferred from Maryland community colleges to Maryland public four-year institutions earned bachelor's degrees within 5 years, while 25% of African American transfer students and 50% of all minority students from this cohort earned bachelor's degrees in the same time frame. (Contains 56 tables.) (NB)

This data report provides statistics about the number and percentage of Maryland community college students who earned a bachelor's degree from a public four-year campus in the state within a specified period of years.

- Community college students who transferred during the 1996-1997 academic year who received a bachelor's degree within five years after transferring.
- Community college students who transferred during the 1997-1998 academic year who received a bachelor's degree within four years after transferring.
- Community college students who transferred during the 1998-1999 academic year who received a bachelor's degree within three years after transferring.
- Community college students who transferred during the 1999-2000 academic year who received a bachelor's degree within two years after transferring.
- The cumulative grade point average earned by community college transfer students (2000-2001) at their four-year institution in their first year after transferring.

For each of the above cohorts, figures are supplied for all transfer students and by certain racial breakdowns (whites, African-Americans, and all minorities combined).

The figures in this report may understate the number and percentage of students who actually have earned a bachelor's degree, since they reflect only those students who graduated from the first institution to which they transferred. Students who transferred more than once, and earned a degree from a subsequent campus, are not reflected in the graduation totals.
